COLOMBIAN ARMS

Achieve An Important Victory Over the Forces of the Revolutionists.

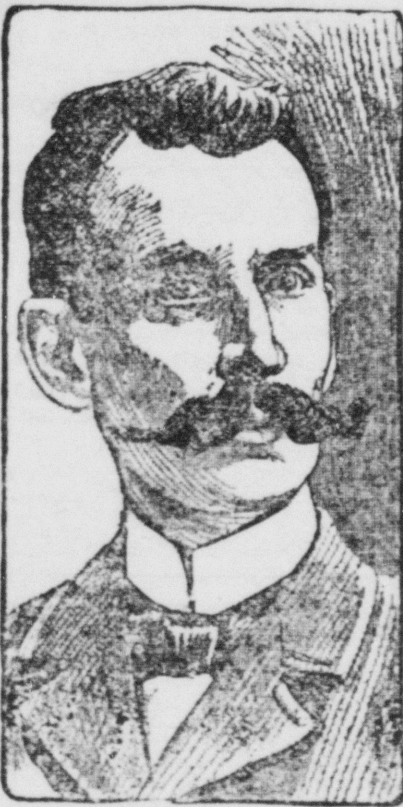

USED URIBE-URIBE UP

Revolutionary General Surrenders to Gen. Marjarras at Rio Frio, Near Santa Maria.

A Victory That Effectually Settles the Rebellion in the Interior.

Panama, Oct. 29.—The revolution army general, Uribe-Uribe, with ten cannon, 2,500 rifles and 300,000 rounds of ammunition, has surrendered to Gen. Marjarras at Rio Frio, near Santa Maria.

The revolutionary forces under General Uribe-Uribe, which were defeated Oct. 14 at Lachenaga, retreated

to Rio Frio and took up positions there. General Marjarras with 2,000 men proceeded against the rebels from La Cienega and engaged the enemy two days ago. The government general succeeded in surrounding the rebels and forcing them to surrender. General Castillo was with General Uribe-Uribe.

The news of this victory was received here by General Perdomo and Governor Salazar yesterday in a telegram from General Marjarras. Details of the engagement are lacking, but heavy casualties on both sides are reported. The surrender of Uribe-Uribe is said to complete the pacification of the departments of Magdalena and Bolivar. The revolutionists now occupy the isthmus only.

In the fight of Oct. 14 at La Cienega the revolutionary force consisted of 1,800 men.

Rejoicing On Isthmus.

Colon, Oct. 29.—The government gunboat General Pinzon arrived here yesterday from Savannah. She was especially sent from that port by the governor of the department of Bolivar to bring to the isthmus news of the defeat of the revolutionists under Uribe-Uribe and Castillo at Rio Frio. Both these generals were made prisoners. There is much rejoicing in Colon and Panama over the success of General Marjarras and especially over the capture of Uribe-Uribe.

Bryan Wrecked Again.

Cripple Creek, Col., Oct. 29.—The Bryan special crashed into the caboose of a freight at Arena in Brown canyon, fifteen miles above Leadville, at 10:10 o'clock yesterday. The special remained on the track, but the caboose was thrown from the trucks and three persons saved their lives by jumping. The caboose was demolished and the track obstructed so that the special could not proceed. Mr. Bryan and his party were put into an empty Swift refrigerator car and drawn by a freight engine, taken to Nathrop, seven miles away. There a chair car was taken from a siding and attached to the engine and run to Buena Vista and Leadville.

Studied Too Hard.

Bloomington, Ill., Oct. 29.—The dead body of Ada Jones, the seventeen-year-old daughter of Charles W. Jones, a wealthy farmer, residing near Waynesville, was found last night with her throat cut from ear to ear. It is thought to be a case of suicide. The girl had been an ardent student at Waynesville academy, but came home Monday complaining of sickness. Overstudy is thought to have caused the girl to lose her reason.

Train Burned.

Laporte, Tex., Oct. 29.—An engine spark yesterday afternoon started a small prairie fire. A freight train following fanned the blaze and cotton on a flatcar ignited. The entire train with the exception of the engine and one car of cotton, was burned. The loss amounts to \$100,000. No insurance.

DOUBTS VANISH

Rousing Republican Majority Is Now Assured.

Indianapolis, Oct. 29.—If there was any doubt in the minds of the men at the Republican state committee rooms as to how the election will result Tuesday, it has vanished since the meeting yesterday afternoon, when Chairman Goodrich heard reports from all parts of Indiana. There was a meeting in which members of the state, executive and advisory committees and candidates on the state ticket took part, and almost without exception their reports were of a most encouraging color. It is true that there are a number of counties in which not as much interest as is desired has been taken, yet the situation as a whole warrants the prediction again that the Republicans are going to chalk up a big majority. Just how big it will be will depend almost entirely now on the vigilance of the organization on election day. If the party workers get busy early and the weather is fine the chances favor at least 25,000, while some of the candidates still think of nothing else but 30,000. But the necessity of good, earnest work is being impressed on every man by the officials of the organization, who are anxious to make a record-breaking off-year showing.

Justice has been quick in the case of Ora Copenhaver, a wife murderer of this city. Less than a month ago he deliberately murdered his wife in a fit of jealousy. The criminal court wasted no time. He was promptly indicted and in less than a month after his crime he was convicted of murder in the first degree and condemned to death. Yesterday he was sentenced to be executed Feb. 12. The rapid work in this case is a source of satisfaction to state officials, as it is believed that it will have a good effect in subduing criminals. Attorney General Taylor has been urging for a long time that cold-blooded murderers should be given the extreme penalty in order to put a check on men of their class. During the last year a decided tendency has been shown to administer the death penalty, and men who are accustomed to dealing with criminals believe it is a step in the right direction.

That President John Mitchell of the miners has grown wonderfully in the estimation of the general public since the beginning of the anthracite coal strike is manifested almost daily in some way. For instance, at a political meeting here this week the mention of his name brought forth a genuine outburst of applause. Some people are already talking of Mitchell as a vice presidential possibility, but it can be said with safety that Mitchell's ambitions are not in that direction. He has the interests of his organization too close to heart to dabble in politics, and at any rate Mitchell is not a politician, although those who know him best feel that he would make one of the best if he should get into the political whirl. When he returns the musicians' union here proposes to turn out with a band of 100 pieces to meet him.

An important meeting of Indianapolis business men was held this afternoon, at which the proposed merging of the board of trade and the Commercial club into a chamber of commerce was discussed. This plan is not entirely new, but it is further advanced now than ever before. Both of these organizations have been of great value to Indianapolis and many believe that united their work would be more effective. Each owns fine property. The two organizations will probably assume the responsibility of the coliseum project which has taken such firm hold on the people since the horse show.

The ingenious politician has Indianapolis in his grasp. Anything to attract attention is in order these days. Transfers are covered with placards inviting votes for Messrs. So and So. The names of candidates are interspersed with names of performers at the various theaters, while Lew Shank, the Republican candidate for recorder, had a standing ad on a theater program urging 10,000 girls to kiss him, sweethearts and vote for him. He is now out with chewing gum giving the date of the election and inviting a vote for himself. He is the first candidate to substitute chewing gum for the old time favorite, the cigar.

The Globe Girdled.

Victoria, B. C., Oct. 29.—It is expected that the cable between Canada and Australia will be completed on Saturday. The Anglia, which is laying the 2,100 miles from Fanning to Suava, left Fanning Island on Oct. 18, earlier than was expected. That section will complete the line. Engineer Dearlove has been testing the Vancouver Island-Fanning stretch for a week with satisfactory results.

Caught at Crossing.

Covington, Ind., Oct. 29.—David Huts, county councilman, and Al Smith were instantly killed by a west-bound Clover Leaf passenger train at a crossing. The two men were on their way home in a light buggy. Both bodies were badly mangled and the buggy demolished, but the horse was uninjured.

Kidnapped Girl Found.

Hammond, Ind., Oct. 29.—Lucy Ray, the fourteen-year-old girl, for whom the police have been looking has been found. She was kidnapped and taken to Chicago, Terre Haute, Joliet and Hammond. William O'Rourke, who abducted her, is under arrest.

GOOD FOR CATTLE

But Hard On Their Owners Is This Strange People's Relief.

DOUKHOBORS GO WRONG

Strange Sect In Manitoba Turn Their Horses and Cattle Out and Yoke Themselves Up.

It Is a Sin, They Say, to Hold Domestic Animals In Restraint and to Wear Woollen.

Ottawa, Ont., Oct. 29.—Inquiry in official quarters in regard to the reports from the West about the Doukhobors elicits the information that there are a number of them, probably a thousand in all, affected with religious mania. They are going from village to village among their own people, and it is said that they are likely to arrange to meet in some central place, probably at Yorkton, to decide upon what they are going to do. The Doukhobors believe it a sin to hold domestic animals in restraint, and they have therefore turned their cattle and horses loose upon the prairies. They will not wear leather shoes or any clothing produced from animals, and the men and women have been yoking themselves to the plow and wagon. A large number of the horses and cattle have been seized by the government and sold at auction. The amount realized, about \$20,000, will be used to take care of the fanatics when the winter closes in. The superintendent of immigration, Frank Pedley, has just returned here from the Doukhobor settlement, and J. O. Smith, the agent at Winnipeg, is also in the city. They say there is no suffering or starvation among the Doukhobors, but that a number of them are affected with religious mania.

A mounted police officer who completed a trip through the Doukhobor settlement near Duck Lake on the 12th inst., reports that the Doukhobors in that settlement were everywhere busy threshing, plowing, etc. They had thousands of bushels of wheat of a first-class quality. They also had a large quantity of hay.

Restless Doukhobors. Yorkton, Assiniboia, Oct. 29.—Some six hundred Doukhobors, men, women and children, have just arrived here. They entered the town singing a weird hymn and carrying their sick and infants on stretchers. They are in want of food.

EXPERT TESTIMONY

Evidence Concerning Molnoux's Handwriting Still Being Heard.

New York, Oct. 29.—Interest in the Molnoux trial centered yesterday in the efforts of the prosecution to introduce the evidence given at the first trial by two important witnesses who are now in New Jersey and beyond the jurisdiction of the court. The witnesses in question are Mattie Melando, the girl formerly employed by Molnoux, who testified that he used the three-crescent note paper that has figured so prominently in the trial, and Joseph Farrell, a Newark detective, who testified to having seen Molnoux on the afternoon the silver bottleholder was bought. Great importance is attached to Judge Lambert's decision relative to the admissibility of this testimony, which will be rendered to-day. Handwriting experts continued yesterday to testify as to the identity of the writing of the poison package address and Cornish and Barnett letters with that of Molnoux.

Passengers Escaped.

Bristol, Tenn., Oct. 29.—A south-bound passenger train on the Norfolk & Western road left the track near Seven Mile Ford, Va., yesterday afternoon. Engineer Robert Hooper jumped and was uninjured, but Fireman Spicer was caught under the engine and fatally hurt. Passengers, baggage and express men were shaken up, but no one was seriously injured.

Steamer's Lost.

Tacoma, Wash., October 29.—The steamer Capital City sunk off Brown's Point at the entrance to Tacoma harbor about 8 o'clock last evening. The passengers were all saved.

Lisbon, Oct. 29.—News has reached here of the founding of the Italian steamer Primavara. It is not known whether any lives were lost or not.

Double Tragedy.

Butte, Mont., Oct. 29.—A special from Bear Mouth says James Conn, a wealthy ranchman on Willow Creek, was found shot to death in his home yesterday. His mother lay upon the floor with her skull crushed in and cannot live. The murderer is believed to be the lone bandit who held up the Northern Pacific limited Friday.

Victory For Executors.

Colorado Springs, Col., Oct. 29.—District Judge Seeds yesterday afternoon handed down a decision overruling the action of the county court in appointing three administrators and sustaining in every point the executors who were named in the will of the late W. S. Stratton.

BEST AT THE MINES

Anthracite Coal Miners Lay Off For "Mitchell Day."

Wilkesbarre, Pa., Oct. 29.—In order that Mitchell Day might be properly observed today, there was a general suspension of mining. The operators would rather the men would have worked, but under the circumstances they were helpless in the matter. The superintendents of many of the collieries were notified yesterday that the employees would not report for work today. Many visitors are here witnessing the demonstration in the city. Street parades and mass meetings are being given in nearly all the towns in the coal region, but owing to the presence of President Mitchell in Wilkesbarre, the principal demonstration of the day is being held here. "Mitchell Day" is the anniversary of the close of the last big strike, Oct. 29, 1900, when the mine workers returned to work after being out six weeks, the owners having granted a 10 per cent increase in wages and other concessions. As in the present strike, President Mitchell then conducted the strike of the mine workers.

The President's Plans.

Washington, Oct. 29.—President Roosevelt next Monday will go to Oyster Bay, where he will cast his vote on Tuesday. He will receive the election returns at Sagamore Hill that night, and on Wednesday will attend a Masonic celebration in Philadelphia, returning to Washington Wednesday night or the following morning. Mrs. Roosevelt probably will leave Oyster Bay at the same time as her husband and come direct to Washington, probably taking up her abode in the remodeled White House. Several of the remodeled living rooms in the second story of the White House are now ready for occupancy.

Outgrown Her Charter.

Chicago, Oct. 29.—A convention of citizens met yesterday under the auspices of the Civic Federation to discuss ways and means of securing for the city of Chicago a new charter. The charter under which the city now exists has, in the opinion of the larger number of business men, become ineffective for a place of the size to which the city has grown, and they claim that under provisions better calculated to meet the needs of the city can be run more economically and with far better returns for the money expended, than is possible under the present charter.

French Strike Situation.

Paris, Oct. 29.—The national committee of the striking miners has written a letter to Premier Combes accusing the companies of using intimidation to force the miners to resume work individually and of discharging those who refused to do so. In its letter the committee threatens that if such methods are continued it will immediately ask all the trades unions of France to order a general strike.
